

Demonstration of Proposed Features

Date	03 October 2028
Team ID	SWTID-2026-6385
Project Name	Script-Controlled ACL – Restrict Record Access Based on Field Value
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Custom Table & Field Setup	Created a custom table with a field (e.g., Confidential / Status) whose value controls record access	Implemented	Yes	Field value used as ACL condition
2	Role Creation & Assignment	Created a custom role and assigned it to the required users and groups	Implemented	Yes	Verified in user records
3	Script-Controlled Read ACL	Created a read ACL with an advanced script that checks the field value and allows or denies access	Implemented	Yes	Script returns true / false
4	Restrict Record Access by Field Value	Records with the restricted field value are hidden from users who do not have the required role	Implemented	Yes	Hidden in list and form views
5	Write / Update Access Control	Edit access to restricted records is limited to authorized roles only	Implemented	Yes	Tested with role-based users
6	Testing with User Impersonation	Impersonated test users with different roles to compare allowed and restricted records	Implemented	Yes	Shown in final demo

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
